# — About us

Lumiforte develops, produces and sells innovative coatings and line marking products. Our team works from our main locations in The Netherlands and France. Our Account Managers and Marketing professionals are passionate about sports and have a wide range of expertise to support our partners. As team players we value long-term relationships built on trust and respect with all our partners and stakeholders.

Lumiforte is your reliable and personal partner for high quality line marking paints and machinery.

More than 30 years' experience developing and producing line marking paints.

A Select team with more than 80 dedicated employees.

Own research & development and production facilities. This keeps delivery times short and it guarantees consistent top of the line quality.

We aim for the highest quality in both service and products.

We are eager, driven and passionate about building and maintaining long-term relationships.

# Paint

Our **ready-to-use-paints** represent quality and convenience. These line marking paints save time and are safe for the environment.

\*The average usage of the paints below apply to our line marking machines.

---

Our line marking machines tie in perfectly with the properties of the Selectline paints. We are constantly improving our existing machines.

# Machines

## Selectliner

Professional, high quality, user-friendly line marking machine with battery and smart charger for optimum charging. Strong steel chassis with adjustable line width. High-quality materials guarantee durability and performance for many years.

## Easyliner

The little brother of the Selectliner. Compact line marking machine which uses the same battery, high pressure pump and spray head. Popular because of its competitive price.

## Roll Liner

Solid transfer wheel marker for ultimate control over your lines with a 10L reservoir and line width of 10cm. Valued by professional clubs for their competition field.

## TinyMobileRobots

Top-quality robots for autonomous line marking of any imaginable field type or size. With advanced GPS technology to ensure accuracy, reliability and sustainability every time.

# Accessories

As a specialist in the production and development of line marking paint, we fully understand that with the correct accessories you will get even more benefits from working with our paint. In addition to a white line, as a groundsman you will also want the line to be perfectly straight and your line marking machines to be well maintained.

## Selectline Cleaner (5L)

Cleaner for your line marking machines for a fast and effective cleaning. Easy to apply and prolongs the lifetime of your machines.

## Rope system

Fast and easy system to get perfect straight lines.

## Field markers

Markers system to aid overmarking. Contains 25 markers, available in white, red, blue, yellow and orange.
